

Farm & Agricultural Safety ATV Safety Checklist

Date _____ By _____

ATV Model / Size / ID _____

Do an ATV Safety Inspection daily, prior to use. Use the pre-ride checklist provided by the ATV manufacturer if possible, otherwise check (at a minimum):

- Tire condition and inflation
- Throttle, clutch and brake operation
- Battery, electrical system and lights
- Fuel, oil, coolant and brake fluids
- Air filter, exhaust system
- Chassis, steering and suspension
- Transmission (including 2WD/4WD shifting, if equipped)
- All accessories or modifications are manufacturer-approved
- Loads are within the ATV's limit and properly secured
- Slow-moving vehicle emblem (if operating on roadways)

Operator Checks

- Are you wearing proper personal protective equipment?
 - Helmet (DOT or Snell-approved), with eye protection
 - Long pants and long-sleeve shirt
 - Over-the-ankle boots
 - Gloves
 - Eye protection (if helmet is not of the full-face type)
- Are you familiar with the ATV you will be using? ____ Maximum Slope/Incline
- Are you familiar with the terrain and potential obstacles?
- Do you have a check-in procedure and a means of calling for help?

When you identify hazards, use the hierarchy of controls to reduce the risk of injury, illness or death. Scan the QR code for more information.
